## QF Series Electronic Truck Scale

QF series electronic truck scale is specially designed for foreign customers with split-joint construction. The platform is divided into two parts across the width. Each section of platform is assembled with others by connection beam, under which load cells are installed. After delivering truck scale to the spot, put the connection beams horizontally at the mounting place in the foundation and assemble the positioning pin onto the connection beams, then put the platforms on connection beams in sequence. Locate the scale platform by positioning pins and connect platforms to connection beams with screws. Install load cells to the right positions after assembling. This construction provides a solution to loading platforms and connection beams into container easily. Platforms and connection beams are with relatively independent modularized structure, while the scale body adopts an uncovered structure of closed cavity and matches with a variety of bridge-type or column type load cells.

## QF Series Electronic Truck Scale

Advanced production equipments are the guarantee of high quality.

## QF Series Electronic Truck Scale

## Basic Configuration

Model	S/ZCS-30/40	S/ZCS-50	S/ZCS-60	S/ZCS-80	S/ZCS-100	Scope of supply
Maximum weight (t)	30/40	50	60	80	100	<input type="checkbox"/> Modularized scale platforms and connection beams <input type="checkbox"/> RC3/RC3D series analog or digital load cell modules <input type="checkbox"/> 1 unit FT-11 or FT-11D electronic weighing indicator <input type="checkbox"/> Standard parts for modules installation <input type="checkbox"/> Analog or digital junction box <input type="checkbox"/> 15m cable, load cell grounding
Division (kg)	10	20	20	20	50	
Capacity of load cell (t)	15	20	20	30	30	
Size:WxL,m	Scale units					
3*6	4.5*4.5	*				
3*10	5*5	*				
3*12	5.8*5.8	*	*	*		
3*15	5*5*5	*	*	*	*	
3*16	5*5*5.8		*	*	*	*
3*18	5.8*5.8*5.8		*	*	*	*

## Remarks:

- Scale body and connection beam can be sold separately.
- The scope of supply includes all components of a complete truck scale.
- Checkered plate for platform is optional.
